# Empire Slate

Featured tiles: Empire Slate  
in Bedford Black

An affordable and environmentally friendly alternative to real slate, Empire Slate is a natural-looking synthetic slate roofing tile that is available in 12", 10" widths, Random-Width Blend (6", 9" and 12" widths) and Designer Series (12" Chisel Point, Beveled Edge or Beaver Tail).

These synthetic slate tiles are Class A fire-rated and manufactured from 25% post-industrial recycled materials. They provide superior protection from the most extreme elements such as rain, wind, hail, snow, fire, extreme temperature change and the sun's UV rays. Little-to-no maintenance combined with a 50-year warranty means a trouble-free roofing solution with lasting performance.

Available in 14 standard colors, 10 factory blends, 8 marbled blends and an array of custom color options, Empire Slate provides the opportunity to showcase the beauty of natural slate at a fraction of the cost.

## Empire Slate Standard Colors

Color samples may not accurately represent the true color level or variations of color blends that will appear on the roof. Colors and specifications are subject to change without notice. EcoStar is not liable for color variations or shading.

\* Available as Cool Color

### Advantages

- The look of real slate without extensive maintenance
- Weighs significantly less than natural slate
- Easy application keeps installation costs down
- Factory pre-blended for color & width
- Significant property insurance discounts may be available when upgrading or building a roof to protect against the elements

### Architectural Flexibility

- Available in 14 standard colors, 10 factory blends, 8 marbled blends and unlimited custom colors
- Designer Series tiles can be blended together for unique looks
- Staggered, offset and random width installation techniques enhance roof texture and depth

### Strength & Durability

- Provides superior durability and protection from extreme weather conditions that include fire, wind, hail and driving rain
- 18" length provides up to 6" of headlap protection against wind-driven rain and ponding snow melt (at 6" reveal)
- Significant life cycle savings

### Environmental Sustainability

- Manufactured with post-industrial recycled materials
- Enjoy additional energy savings from our line of Cool Colors, available in 11 Empire colors

### Technical Information

- UL listed Class A or C fire resistance (UL 790)
- Category highest Wind Speed resistance
- UL Class 4 impact resistance (UL 2218)
- Prolonged UV Exposure (ASTM G155)
- UL Evaluation Report, AC07-UL ER 18920-01
- Fungus resistant (ASTM G21-09)
- Miami-Dade County, Florida NOA No. 17-1227.10 11/07/23
- Texas Dept. of Insurance Evaluation (RC-135)
- May contribute to LEED® points
- Manufactured in strict adherence to ISO 9001:2015 Quality Management

### Warranty Options

- 50-Year Limited Material Warranty available
- 50-Year Gold Star Labor & Material Warranty available
