# Majestic Niagara Shake

Majestic Niagara Shake is a natural-looking ¾" thick, 22" long, synthetic shake roofing tile produced in an even blend of 7", 8", 9" and 10" widths. The added length allows Majestic Niagara Shake to be installed at a 10" exposure, maintaining 2" headlap throughout. An additional 9" exposure option allows for the creation of unique looks using a staggered installation.

These synthetic shake tiles are manufactured from 80% post-industrial recycled materials and provide superior protection from the most extreme elements such as rain, wind, hail, snow, fire, extreme temperature change and the sun's UV rays. Little-to-no maintenance combined with a 50-year warranty means a trouble-free roofing solution with lasting performance.

Available in 12 standard colors, 10 factory blends and an array of custom color options, Majestic Niagara Shake provides the opportunity to showcase the beauty of natural shake at a fraction of the cost.

## Majestic Niagara Shake Standard Colors

Color samples may not accurately represent the true color level or variations of color blends that will appear on the roof. Colors and specifications are subject to change without notice. EcoStar is not liable for color variations or shading.

### Advantages

- The look of traditional cedar shake without extensive maintenance
- Easy application keeps installation costs down
- Factory pre-blended for color & width
- Significant property insurance discounts may be available when upgrading or building a roof to protect against the elements

### Architectural Flexibility

- Available in 12 standard colors and 10 factory blends
- Packaged in a blend of 7", 8", 9" and 10" widths

### Strength & Durability

- Provides superior durability and protection from extreme weather conditions that include fire, wind, hail and driving rain
- 22" length provides up to 4" of headlap protection against wind-driven rain and ponding snow melt (at 9" reveal)
- Significant life cycle savings

### Environmental Sustainability

- Manufactured with post-industrial recycled rubber and plastics (not tires)

### Technical Information

- UL listed Class C fire resistance (UL 790)
- Category highest Wind Speed resistance
- UL Class 4 impact resistance (UL 2218)
- Prolonged UV Exposure (ASTM G155)
- UL Evaluation Report, AC07-UL ER 18920-02
- Texas Dept. of Insurance Evaluation (RC-135)
- May contribute to LEED® points
- Manufactured in strict adherence to ISO 9001:2015 Quality Management

### Warranty Options

- 50-Year Limited Material Warranty available
- 50-Year Gold Star Labor & Material Warranty available
